June - D + Russ

Welcomed for 20 days. I drove the Cadillac and Al, our new Jeep with the canoe, Russ drove his car + Dot rode with me. Stopped to see Hilsher + have coffee with her on way up. All met for lunch at Hinkley + coffee at Two Harbors. Beautiful day after starting out in a pouring rain. We had a wonderful time together for a week. Drove to Bear Lake + canoed to a huge rock for a picnic! Picnicked on a huge rock by the Paplar Trail. An awesome sight at the fall. Russ + Al got wild flowers and spruce

farms + planted in the area in front of our unit. We also drove to Grand Marais + shopped around.

Russ, Al + guide went stream fishing and got some wonderful trout - 4 rainbow (1 #ea.) + 3 small brook trout. The most delicious fish I have ever eaten. There was a full moon and that night we had coffee on the rocks out by the lake.

Al and I went to Bruce Lake again, planted more flowers, and drove to the top of the ski hill in our jeep. I'll never forget the joy of being able to get up there to see the magnificent panorama of hills and valleys and rivers.

Went to Cath. of Kings Church.
Drove to Devil's Track Lake.
Al went on an exploring

Sun, May 20, Dan + Sue took us on a fishing trip to Barber Lake. Great adventure! The lake is lovely and unspoiled. Al caught 3 walleyes - one large enough to keep. They invited us home for trout + our walleyes afterwards. Wonderful people!

Mon. May 21, Slept late. Saw 14 varieties of birds - rosebreasted grosbeak - evening grosbeak, purplefinch - Redpoll Goldfinch - Grackle - Cow Bird - Robin - Blue Jay - Blackthorn Warbler - Red Winged Blackbird - Junco - Oriole - fifty or sixty birds at our feeder.

Wed. Visited the cave + had a picnic lunch. Little cool but fun. We found a gull sitting on her nest containing three eggs. She was frightened + angry at us, but came back when we were quiet. The nest was out near the edge of the rocks in a little hollow. Met Mr. Churchill.

Tri - Had a terrific rain & wind last night & today. Cold!

Sat - Weather cleared. Went to the Cove & found Gull still on nest.

Mon, 28th Had a little picnic at the Cove and enjoyed a very lovely day.

Tues, 29th Left for home.

- June 27 - July 9 - Al & I
~~July 6-9 - he and Emma and Gabe~~
~~Could not come. Got sick.~~

Al and I arrived for Don O'Brien's funeral. He died Sun. night of a heart attack. Sorry to lose such a fine person. As usual we walk, carve, cremel, and read.

Took a trip on Caribou Lake with the canoe and new 2-horse motor. Worked like a charm. Found a good place to picnic. Spent Sun. afternoon at Don Hansen's dock with the Hansens, Schultzes and Tubens and their girls. Had a ride in Don's new boat. Went to a play, "The Glass Menagerie".

in Grand Marais. Took Doc & Sue out Tues, July 3. - They had weather today. The black flies have arrived & they like me too well. We've enjoyed playing golf. Inspired me to ~~take a mess~~ ~~stop in the village & the Pennington~~. We talked with Doc about putting in a full-size ref. freezer. It can't be too large because of limitation of space, but it will be an improvement.

Doc & Pat Nelson had been to Isle Royale fishing and we were invited (with Sue & Doc) for a treaty dinner at their beautiful home. A very delicious dinner and such a fun evening with their nice family. (Cindy, Mike, Traci & Tim). They had a call from Becky who had just arrived in New York after a European trip.

The gull nest at Kamenka hatched only 3 gulls, and only 1 lived to let me see him.

- Oct. 9. Nice to be here after 2 months absence. We are having very heavy rains and fog and high waves & stormy seas. Quite a bit of gold color left, but the peak time for color is gone. We realized our trips to Europe would deprive us of the color. Problems with the drain field, but we managed. The space under our house & the one next door, D-4, is half filled with water. One evening, Oct. 10, was clear & the full moon was lovely. Nothing has been decided about our refrigerator.

- Nov. 20. Came up to spend a week after 2 weeks in California with Kerene & Char. & Gary. Erik Gillberg ^(Sweden) arrived Thurs. last week (the day after we got home). He came up to Lutsen with us. Miserable day - rain & fog. Our new refrigerator has been installed & I like the arrangement so much. No more crawling in the corner!

I spent Wed. going thru and re-arranging the whole kitchen. Al took Eric out sightseeing. Eric is sleeping at the Cliff House & spending his days here.

Lee and his family are due tomorrow - Thanksgiving. They arrived in the middle of the afternoon and the weather while we were all here over the week end was beautiful.

I woke one morning and saw the most beautiful sunrise! The sun made a bright red path across the lake & touched the ~~water~~ ^{wet} tracks with crimson - a most unusual sight. We all went to the Cove. The new road is very nice. Had

Thanksgiving dinner (Thurs.) at the Heart & dinner there at P-5 Fri. and Sat. We all had a good time. Al & I went to the Chmn. meeting Saturday. Eric left by Bus early Sun a.m. & his family, after breakfast.

We left the following Tues.
 Mon + Tues gray and raining.
 With the energy crisis don't
 know just when will
 get back, so I drove the
 Cadillac, and Al, the Jeep
 home.

Jan. 8-18 Al and I drove the
 2 cars back here. Seventy miles
 out of Typle, we ran into a
 snowstorm which continued
 all the way up. Very cold
 weather ^{-30 at night} & blowing light snow
 made visibility poor, but
 we made it without trouble.
 Left home 8:15 a.m. & arrived
 3:15 p.m. - 2 stops to eat & relax.
 Got as much snow up here
 as they would like. Tried to
 see "Rohutels" but no luck.
 Stayed in most of the front
 week - very cold. Saw the
 Super Bowl game at Inn & Suite
 24-7 (Miami & Vikings). The
 Vikings played poorly. Al & I
 took two snowmobiles out

Al really enjoyed his drive.
 Waves high during night & some snow.
 Drove the new road to the Cove.
 Saw a number of deer. Beautiful
 in there. Al went snowmobiling
 with Der again ~~the~~ ^{the} eve.
 Ate dinner at Rust & left
 for home Fri a.m. - the 18th.

— Feb 21-25 Lee, Em + girls here
 Wonderful skiing. Trouble
 with hooker-ups septic tank.
 Amers.

— Mar. 17-22 Al and I drove up
 using the Opel car for the
 first time. The got 24 mi.

 an announcement was made
 that the oil embargo is over.
 We did a lot of reading and
 just took it easy. Did not
 out on Lake Superior as yet.

Around the big car. Had a
prime trip. Cite at the Chinese
Lantern in Duluth. Beautiful
sunny day - about 60°. Ice out
on lake except closer to Duluth.
Still a lot of snow. We saw
many deer. Hiked down to
the Lake. Resort closed entirely
because of plumbing work.
Had a picnic in the Japs by
Caribou Lake - all frozen over.

~ May 24 - June 1 (Ass'n. Meeting)

Al and I arrived the afternoon
of ^{Tue} May 24 and Dorothy and
Russ came for dinner the
next day and stayed until
Tuesday morning. We
did casual work and
played cards, read, walked,
drove up to Carlton Peak &
went to the Cove. Had a
good time. Spring is very
late this year. Fri thru
Sun. were beautiful, but cool.
Leaves are just coming out.

Had some nice weather at our
funder, a Blackburnian + a
"chestnut-sided". This was
Misty's first visit to Linton
and she has been very good.
Rained all week until Friday.
Finished all my sewing, etc.
Left for home after the meeting.

- June 14-18 Christa rode up with Al
and me and Misty. Nice day!
Siri, Karen, Sue, + Em came on
Sat. (delay of one day because
Karen was sick) Windy +
cold on Sat. Dinner at house.
Started Russian handwork.
Sun - Sue, Al, + Christa went
trout fishing in the stocked
stream, Got 2 large and 4 small trout.
Had standing rib roast for dinner
+ had a good evening together.
Siri, Karen, Em + Sue left Mon.
Christa, Al, and I on Tues a.m.

- July 12-19 Very hot in Tpls, so
drove up with Misty for a week.
Much cooler here, but lots of bugs.

Maren is at Cathedral of Pines Camp
so we stopped to see her and
Emily (Pally's daughter - nice girl)
and their cabin. Extremely hot
up there - about 100° . 60° on
the lake shore, except on
Sunday when the wind changed.
The girls were just walking
in from swimming and
then had choir practice.
Sun + Fri were very hot!
Went to visit Christa on her 17th
birthday. She was enjoying Camp.
Drove up Onion River Road to a
beach spot + walked about a mile.
Planted some flowers here.
Then we drove to Pigeon River
+ couldn't get into Canada because
we didn't have Misty's certificate
Had coffee at Kaennan one
day. August will be their
last visit and stay here. I'm
sure it is hard for them to give
it up. Emma is now 90 years
old and the others over 80.
Remarkable women!

— Aug. 20-26

Rained every day. Took a trip to Canada & Takahama Falls. Next morning after breakfast Al was taken to the Grand Prairie Hospital (by me) & put in the Coronary Care Chest pain. Released Mon a.m. & I drove home. A rather difficult week.

— Oct. 5-13 Leaves still beautiful. Stopped at Alice's for coffee on way up. Drove our new Card. ('75). Comfortable ride. Ditched "Wind Song" with Doc & talked over some possible plans. Found snow up in the woods very wet. Addressed our Christmas Cards & cleaned D-5 well. Misty has learned to come when called here. Th. Fri & Sat - weather clear & beautiful. Al and I spent the ^(Sat) afternoon at our new Cabin. It got up to 72° with a fire in the fireplace and the floor furnace on. We took a nap, looked around, made some plans, and

had an inside picnic. It is a very lovely spot, but needs a lot of work. I should be free to make it a year-round place. Had some excellent dinners at Lytton Forest. Arose home on Sunday.

- Nov 27 Dec 3

Al and I drove up to Lytton to spend Thanksgiving. Had trouble with the Dealer's Cadillac + spent an hour in the garage in Forest Lake, so got here after four. It looked so beautiful here - new snow and they have planted six lovely evergreens in back. What an improvement! Al + Em and girls should come tomorrow and stay until Sun.

Our house at home is quite torn up with the remodeling so it was nice to leave it. Skiing should open tomorrow. They have been making snow. Al, Em and girls came Thanksgiving

afternoon, he took us to dinner at the Restaurant at six p.m. Delicious food and much fun with the pin ball machines afterwards. Friday went to the Cove, picked up small cones & walked around. Then went to the Chalet. The girl & Em skied until four. Al and I went back to start dinner and Ben hiked in the woods. A tired bunch in the evening. aged considerably + is totally
blind, but her lovely friendly
self anyway. She enjoys her

wind died down after several
days. Every day has been
sunny and clear.

A-5 has been used 41 times
in 3 years. - 304 days

= June 6 - Al + I drove up Friday
for about ten days. Grounds
around units look very nice.
New trees, etc. Went to the
spring owners' meeting. Much
reporting about environmental
procedures and about Cook
County. Visited at the Summer
nice people (Annette's parents)
Ate at Cascade on Sunday.
Made some decisions about
our new place. Monday - they
put simple roof covering on

to keep house from leaking.
Went three things and decided
what we would need. Gull
babies still in nest, but
getting quite large. Nice day
when we left. Lee & his family
were here for Father's Day and Lee &
Em's birthdays. Lee caught 10 trout.

July 1-7 Al & I came to get away
from the heat and see how things
are progressing at the Cottage. ^{Baby gulls}
Beautiful weather - nice & cool. ^{swimming}
in lake.

^{July 4}
The Mayers invited us for home-

wanted to hike the trail on Onion
Road. Esther Piper and I visited.
After dinner the Pipers showed
^{the slides} they had taken the weekend they
were up the days of the big storm,
Mar. 23 & 24. Spectacular pictures,
which we could have seen it.
The Mayers & Arnolds were there
also. Fun! Raining hard! The
Mayers loaned us their canoe ^{in the afternoon} & ~~we~~
took me for a short ride on the lake.
I wasn't afraid. Water very smooth.

After almost a week with us in Maple Lake & Chas. took off for the Sault Ste Marie.

1975 July 25 to Aug 4

We took Mary with us up here and Charlie & Horraine came July 28, parked their trailer here, and finally had to take their sick dog, Topsy, to Duluth. We spent some time here & some at the cabin. The cabin will be nice - almost finished on the inside. Lee, Chas & Mary left Fri a.m. We celebrated our fortieth anniversary with Lee, Em, Christa, Siri & Thane at "Wind Song". It really looks nice on the inside. What a beautiful location! Em & I worked hard on it and everything is in order. We stopped at Iris before we left and ordered a new stove and refrigerator. The weather has been just beautiful. We'd like to stay longer.

Aug 23 - Sept 2 Spent all our time at "Wind Song". Really place.

1975

Sept 19 - Oct 5 - at Wind Song. There a couple of nights. Bob and Betty Post + Dan + Alice J visited me for 2 days each. We had a good time over there. It rained only the first 3 days. Went to coffee + dessert at Sundkage + to the Alens to meet neighbors. Al fixed up the shed + we think it a great improvement. Decided to winterize the place. Hope it will be ready by spring. Had a wonderful boat ride on Dan + Sue's boat + took them to dinner afterwards. Lee + Em came late ^{evening} + stayed ^{through} ~~the~~ ^{the} night. We left Sun a.m.

Nov. 18 - Dec. 1

Al and I drove up the 18th. Nice trip - cloudy but not too cold. Tue. night the lake became very stormy - 10' waves that washed up on the dunes. This became rain in the a.m. + later on snow. During the night the waves peaked in 15' high + the wind was

(1975)

very strong. Wed. we went to see the remodeling of "Wind Song". It is exciting to see how the new windows & foundation change the cabin for the better. The roof is over half finished. Talked to Dan about some changes in the arrangement of the kitchen.

Thurs. the waves were 30' high. 12" of snow in Two Harbors. We got 6" but blizzard blew it around. Our front area was completely under water for a while. It is full of rocks, weeds, leaves, soil, branches, and a log - a mess. The wall of rock was knocked over.

Stopped to have coffee at Palmquists. Roads very icy. Friday Palmquists here for coffee. 30' waves threw up boulders, rocks debris & a small lake formed in front of B-5. They cleaned it up next day. Clear Fri. & Sat.

Sun. eve the temp. began to drop
and Mon. eve went over to see
the Cabin Mon. eve - to the Donalds
for pumpkin pie and scrabble.

Tues, Nov. 24, we woke at
4 a.m. The power was off so
we packed up & went to the
Resort with Misty. Power back
on at 11:30 a.m. Someone had
shot out a transformer near
Little Marais so power was
out from Silver Bay to Canadian
border. I went to get my
hair washed & when we came
back went to Grand Marais
for groceries. Before we
went to get my hair done, we
had a bad chimney fire here.
The paint burned off the
stack & we had the Fire
Dept. from Luteson and
Earle Manning, about 30 men
altogether. Such excitement!
We are tired.

Wed - Down to the cabin. The
painter sprayed the chimney of the
Ferret with black + Al + I spent 2 1/2 hr.
(10-5)

of hard labor trying to get the paint off the furniture stove, etc. We had to scour it off & then used turp oil. What a mess!

27th Then beginning + we have much to be thankful for in spite of all that has gone wrong on this stay. Ben + Em and girls came at 2 or so & it was so nice to see them. We drove to see the Cabin & they were all so happy with it! Went to dinner at 6:15 & had good food but terrible service so we didn't get back until 9:15. Tired & some talk & to bed.

Friday - Sking & Al + Lee road hunting.

1976

This is our first trip since July 4 and since my gallbladder surgery. The Condo needed care. We killed over 200 black flies and repaired the chip on the fire glass with a mixture of Tosters yellow + red enamel. Wayne, Irons worker, painted the stack on the firepot which had begun to rust. 1982

Thurs. Sun.
- Sept 29 - Oct 4 - Al and Marian

Had a good trip. Coal-Colored leaves beautiful. After waiting 12 years to see a Moose, we saw two of them near Schroeder in an open area between the left of the road and the woods! Highlight of our trip, I guess, because Al got the stomach flu Thurs. night and feels better, but weak, & on Sat. Doesn't feel like eating. There has also been steady rain & fog.

It is now Saturday afternoon and weather still bad. Not too cold - about 54°. The leaf tour would be great if we could see thru the fog. So we rest, read, and watch the fire & are thankful for our comfortable Condo. We killed hundreds of flies in the Condo.

Sat. - Went to the Snörgished at the Resort.

The food was especially good! Saw Mark & Cheryl Nelson & Margie Tucker with a group of 18 from First Covenant who make this long weekend an

annual event.

Sunday morning the sun came out & we took the Beaver Cove Tour. Most beautiful on Caribou up to the Lutheran Camp - all singles. Sun. with had ribs at Irish Terrace in Grand Marais and drove back in a terrific downpour! Monday - Bridge, reading crocheting. Cleaned up the wood box. Stormy on the Lake tonight - high waves. Left Church at 12:00, went home & changed our clothing & arrived at B5 at 6:30. Condo was nice & clean but phone out of order. Went to bed early. As far as one can see, there is ice on the lake, frozen in rough shards. The moonlight on the ice was so beautiful. Sue and E-m & Christer are at the Cabin. Monday with me took Sue-E-m & Chr. to the boat for dinner & came back here to play Gummy-T. The next morning

we had brunch at the cabin
 with them & he took us for
 a ride along the heritage road.
 We saw a lot of deer. We have
 seen over 2 doz. in all this
 time here. The ice was frozen
 about a block out. He's went
 home Tues. & we leave Thurs.

 coffee in Whiskey and food
 at the Restaurant of St. Joe Harbor.

 Tested a lot. Drove to Grand
 Marais for dinner & stopped

 some things on some
 heat. Some Can. Juice in
 front. Full moon one
 night but most of the
 time fog & a little rain.

Lee, Em, Siri, and a friend, Megan,
 came late Fri night. They
 came for coffee on Sat &
 we all were invited to the
 Resort for dinner by Lee.
 This is his birthday - 45th &
 Em had her birthday on the
 11th. We also celebrated Father's
 Day. We had a very good
 dinner at the Resort and
 surprised them with an
 angel food cake covered with
 cream & some strawberries
 (made from scratch at the
 Resort & delicious) for Em's
 and Lee's birthdays. Then
 we all went to the cabin &
 they opened Father's Day &
 birthday gifts. Al got a
 game of "Trivial" and we
 all had fun playing it.
 Had more cake & then
 to bed. Slept late. A fun
 day but the heavy fog continues.
 The weather was so bad
 Marion & Cliff called & we
 went to Birch Terrace instead

of Sun Hunt Lodge ^(their treat). It would have been a long ride in unpleasant weather. Had a very good dinner & went to Schmuck's for a game of Bridge & shubert pie. Left home a.m. & stopped at Elec. Co. It was sunny & 70°.

1984 - Sat - July 21 - Sat, July 28

We left home at 9:30 and arrived at the Condo at 3:00. We had a good fish dinner at Betty's, so didn't eat much when we got to the Condo. We were so very tired. We had one of the busiest weeks I can remember, so we went to bed and slept the clock around. Al has got a Athletic Foot!

Joe and Em have vacationed the past week at the Cabin. They stopped Sunday for coffee on their way home around 1 p.m.

We took Marion & Cliff to the Resort for dinner. Food not so good & service the worst ever. Came here for

Bridge + ice cream

 H. Our car wouldn't start when we were ready to leave the lands so Wayne helped us start with a jump cable. Arrived at 3:15 p.m. Had dinner at Betty's. She has returned + the food didn't seem quite as seager. Cool at the shore. For. Drive to Kainulogan for a good hamburger lunch after I had been to Tipton because we needed a new battery. Reading Colson's books and did a little craft work. At home for dinner - a S&J sandwich and ice cream on Sat, + went to the Lutheran Church on Sunday. Cool + rainy. The lake has been very rough, but beautiful. Had dinner at D-5 + went to Palmquist's for desserts. ^{Bridge} We are enjoying reading Colson's books, "Born again", "Life sentences". They are great books. Marion gave me some flowers to dry.

and a jar of raspberry jam. I gave her a jar of chutney jam. Cliff had painted Ali's Cowboy Caring for us + it is so cute! Labor Day (Mon) ^{Fairing} we had a late breakfast of French Toast + bacon + hamburgers, tomatoes + applesauce for supper. Finished Coling 2 books. ^{Sept 5, 1984} Tuesday we talked to George Nelson and put D-5 up for sale, so we spent the day cleaning out the kids and her + Eric's things and took them to the Cabin. I oiled the Teak furniture and cleaned out some closets, etc.

Wed. went to town hall to hear a talk + movie on "Birds of Prey" - Thurs - changes + took Hanson to dinner at Fish House. Fri breakfast at Resort + home. Then lived here on vacation since Nov. 1971 - almost 13 yrs.

1985

Jan - 1985 We had a call from George Nelson telling us D-5 looks like it is sold. The Earnest money of

* \$5000 is in his hands & his attorney sent the Purchase Agreement to us. We are having Tom Waldum at the bank check it. He will call us on Monday. In the meantime he & Em went ^{upstream of 7:30 p.m.} up there & cleared out the few personal things we had left. I found the diaries at home in my dresser drawer! (after they had hunted for them.) The price is 117,500 Cash with the buyer paying half of next year's taxes & the \$900 assessment being pro-rated. They want to close on Feb. 7.
